

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

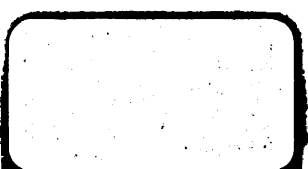

We also ask that you:

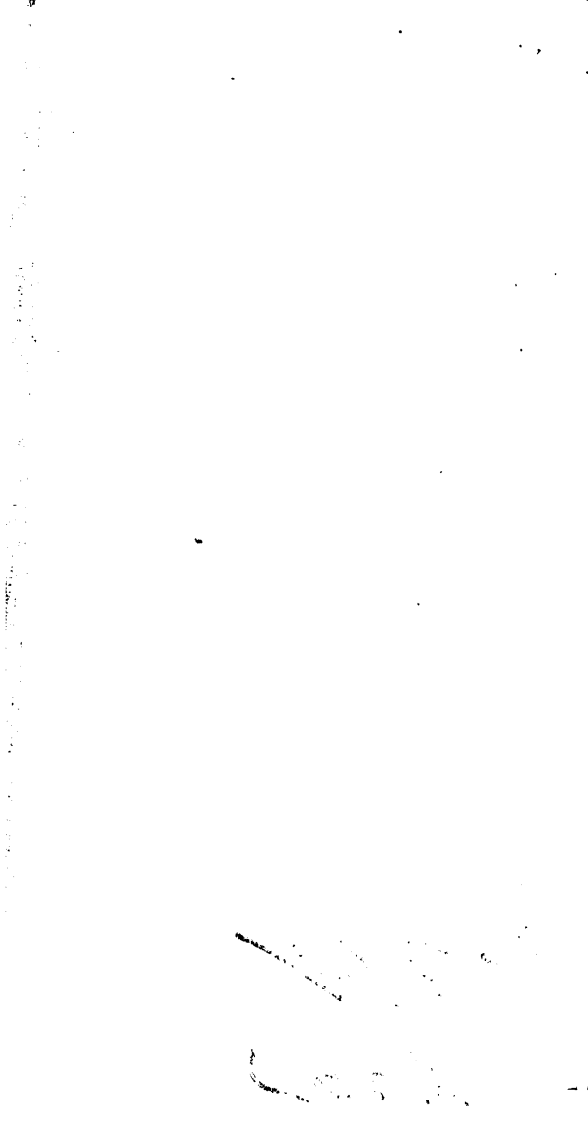

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

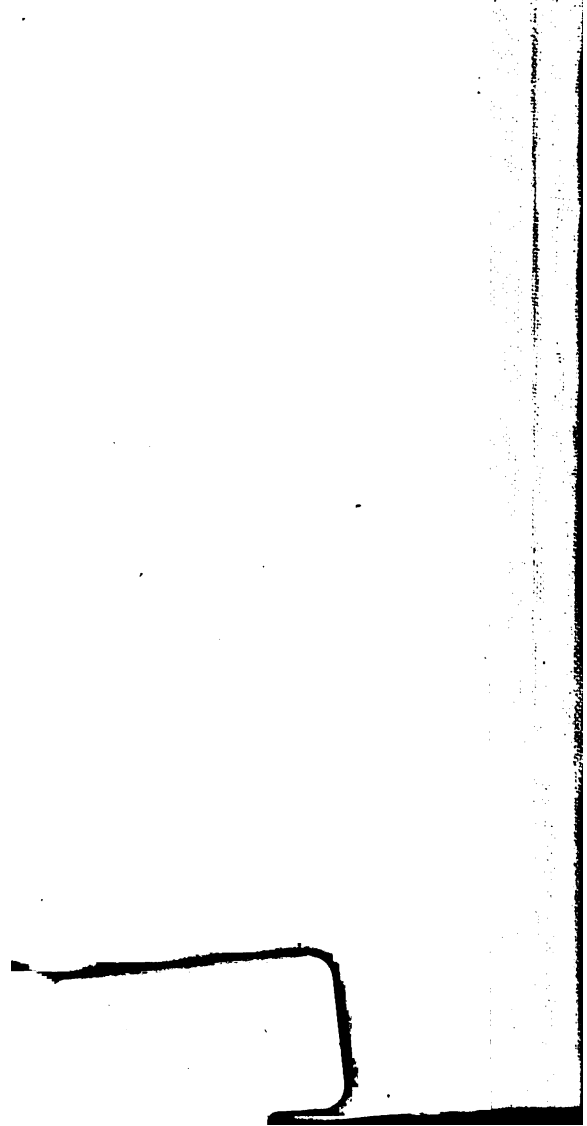

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

TRADE MARK.

JUST A POINT OR TWO.

Our preface will bear out the idea of the book all through, that the busy business man of to-day wants everything in the smallest, most compact form providing it contains the particular information desired on a given subject.

This book bears on the subject of newspaper advertising only, and consequently we have omitted all mention of papers which do not print advertisements.

It gives all the description necessary of each paper, the name, the issue, the politics, denomination or class, and the circulation.

The subscription price, the publishers' names and the street location have been omitted as information of no consequence to the ordinary advertiser.

Our circulation ratings are believed to be as correct as it is possible to make them, and more than one-half of them are "certified to on honor" by the publishers or editors.

Information lacking we shall be pleased to supply by personal interview or correspondence.

LORD & THOMAS.

CHICAGO, August, 1890.

DAILY 28,590.

WEEKLY 126,500.

THE DAILY FREE PRESS is Michigan's representative newspaper. Established 1826. One of the very few American journals considered worthy by Geo. P. Rowell & Co. of their highest rating, viz.:  which signifies that papers so marked "*are to be considered as the very best,*" being "*especially valuable for advertisers from having a rich clientage, exerting a special influence, having a long established hold upon the community, which causes them to be more thoroughly read and more highly esteemed than others.*" This high praise accorded by an expert but expresses the opinion of Detroit advertisers, as shown by their preference for THE FREE PRESS.

THE WEEKLY FREE PRESS is known wherever the English language is spoken. It is to be found in every city, town and hamlet in the United States and Canada. Its circulation exceeds that of any other American family newspaper, and is constantly growing. It is a prime favorite with every reader. For the advertiser it furnishes an unexcelled medium at moderate cost. Advertising rates much lower than those of any journal approaching it in character and standing.

Affidavits verifying them are on file at the business office San Francisco, Cal., and at the New York Offices, 230, 231, 232, 233, 234, 235, Temple Court Building.

We respectfully ask advertisers who intend doing business on the Pacific Slope to thoroughly investigate the standing of the different Dailies on the Coast before placing their business. They will find that time has brought about wonderful changes, and that the papers which used to lead in days gone by are but followers to-day. Advertisers should investigate. They are entitled to know the standing, circulation and influence the newspapers have, which they intend using. Advertisers from sheer force of habit will invest thousands of dollars yearly in papers they know little or nothing of, and they wonder why their advertisements don't pay. Every dollar judiciously expended for advertising in papers which have merit will bring its golden reward. We will aid you all we can and give you such evidence of our continued growth and prosperity that will satisfy you that we have earned the title of "Monarch of all the Dailies." It will pay you and it will pay us: our interests are mutual.

What a Member of the State Press says of

The Nebraska

State Journal

PLANT

(From the Geneva Republican.)

THE STATE JOURNAL COMPANY has a plant which Lincoln should guard with special care. We say they should, for we are constrained to believe that many of the Capital City do not realize the greatness of this plant. It might be well for the business men of Lincoln to visit this plant and if possible take the amount of work done and the quality of the same. We desire to place ourselves on record in saying, THE STATE JOURNAL COMPANY has the largest plant of the kind west of Chicago. They not only have the largest plant, but do more work and a better class of work than any other house. Let Lincoln men spend one-half day looking over the machinery, lithographing, book, job and type departments, the different stock rooms, and they will go to their places of business speaking a good word for a company which through untiring efforts has made it possible for the Capital City to grow as by magic. People throughout the South Platte country should visit the JOURNAL office while in the city. You will feel proud of the enterprise and its managers.

Largest Circulation and Lowest Price Makes The Minneapolis Journal

The Best Advertising Medium in the Northwest.

Such is the opinion of all who use its columns. It is used by local merchants to a greater extent than all other Minneapolis papers combined.

Its circulation in the city of Minneapolis [population 325,000] is greater than the combined circulation of all other dailies that are distributed in that city.

The Daily Average [sworn to] for 1889, was 27,662.

Its yearly Advertising Rates are less than one-seventh of a cent per line per 1,000 of circulation.

The character of its circulation being of the highest, it therefore **GIVES BETTER SERVICE FOR LESS MONEY** than any other paper in its field.

Minneapolis being a city of homes, its inhabitants thriving and intelligent, to reach this prosperous class cheaply and effectively use

SCRIBNER'S MAGAZINE.

THE *only real objection* brought against magazine advertising is, that so much of it is printed that people do not look through the advertising pages. *Scribner's Magazine* has realized the force of this argument, and now scatters through the pages humorous illustrations by the best artists. They are never arranged two months alike; and it is certain that every page of advertising is examined by every reader. Of what other medium can this be said?

Concerning circulation: If you are really interested, ask the leading periodical dealers in your neighborhood how *Scribner's Magazine* ranks, and what class of people buy it. Then compare prices.

Another test: Look over the list of advertisers who use our pages; they are shrewd men, and spend money only when they are convinced it is to their profit to do so.

THE EVENING POST, one of the ancient landmarks of the American press, has for generations maintained the dignity and authority of journalism, and its prosperity will cause general satisfaction.—*New York Herald*.

THE NEW YORK EVENING POST

The best advertisers use the columns of the EVENING POST liberally, because it is the least expensive way of reaching a large and intelligent class of people, who will pay a fair price for a good thing. An examination of the paper will justify this claim.

THE EVENING POST,
206 to 210 BROADWAY, NEW YORK CITY.

THE EVENING POST is the most historic journal in the city. No journal in the country surpasses it in courage and in intellectual equipment, and none is more trusted for sincerity and independence in the discussion of public interests of every kind. We are glad to think that its prosperity corresponds with its well-earned desert.—*Harper's Weekly*.

Time Has Proved that THE NEW YORK TRIBUNE

DAILY AND SUNDAY

POSSESSES A CONSTITUENCY

which yields to advertisers the best results for their expenditures for advertising. Summer and Winter Resorts frankly admit that

THE TRIBUNE

brings them the most responsible and profitable customers. Merchants say that

THE TRIBUNE

throngs their stores with the best and largest buyers. Furniture men have received remarkable orders from the readers of

THE TRIBUNE.

People who want either employees or situations reach the most desirable classes through the columns of

THE TRIBUNE.

The list might be extended indefinitely. As for

THE WEEKLY TRIBUNE

the value of this great paper of the Farmers, Country Merchants and Union Veterans of the country is almost too well known to need explanation. It need only be said that THE WEEKLY TRIBUNE reaches the most reputable, responsible and ambitious classes in our country population—people who buy and pay for what they get.

PUBLIC OPINION

Is the only Journal of its kind in America.

Stands pre-eminent among the high-class weeklies as an advertising medium.

WHY?

BECAUSE it has a wide and well-distributed circulation of over 20,000 among the most intelligent readers of the entire country—a people who have money to spend.

BECAUSE it is a journal which furnishes such a large and varied amount of select matter that it is taken up again and again during the week, and then preserved for future reference.

BECAUSE it is taken by hundreds of Reading Rooms and Clubs, and passes from hand to hand until well worn with use.

BECAUSE it is not limited to the "men folks" or "women folks" of the family, but is essentially a home paper and read by all.

BECAUSE no trashy advertisements or those of doubtful standing are admitted to its columns at any price, and its readers know this, and read the advertising pages with confidence.

Dear Sir:--In sending in your circulation quotation to us you forgot to fill up the order for a page advt. Believing this to be an oversight on your part we send you another blank, and we trust you will see your way clear to give us an order for a page. You will notice that we are drawing the line at 5000 circulation for Daily papers, and as your paper is the only one in the State, outside of Chicago, that comes up "to our size" we trust you will take advantage of it. The Cincinnati Daily

Commercial-Gazette

Has for many years been the foremost Republican newspaper of the Great West. Its reputation for enterprise is national and its circulation among the intelligent, wealthy and business people of the broad and populous Ohio Valley, makes it, without exception, the most valuable medium for advertisement everywhere.

The DAILY COMMERCIAL-GAZETTE has not only the largest circulation among the best classes in Cincinnati, but reaches also an enormous constituency in surrounding States Ohio, Indiana, Kentucky, Tennessee and West Virginia where it is daily delivered.

Advertisers, East and West, desiring to bring themselves and their goods to the closer attention and patronage of the people of the Ohio Valley and contiguous country, will find a more advantageous channel than is offered by the *Daily Commercial-Gazette*.

The Cincinnati Weekly Gazette

Stands in the front rank of American Newspapers, and fills a peculiarly important and valuable field in the great valley of the Ohio. Its influence and circulation, however, are not confined to its local boundaries, as it goes with its weekly wealth of political truths, agricultural teachings, fireside readings, and general entertaining miscellany, to a hundred thousand rural readers in the Western, Middle and Northwestern States.

Exerting, as it does, a commanding influence for the benefit of interests of advertisers, the vast multitude of readers reached by this paper constitute an audience whose acquaintance business men will find it advantageous to cultivate.

Advertising rates are low, extent and character of circulation considered.

PAYS

to Advertise in the New York Observer.

THE RURAL NEW-YORKER.

34 PARK ROW, NEW YORK.

National Weekly Journal of Agriculture and Horticulture.

The Rural New-Yorker was established in 1850. It stands day at the head of the list of agricultural papers, and has the largest actual number of paid-up subscribers of any paper of its class in America. Hundreds of its subscribers of thirty years or more are still numbered among its patrons.

\$2.00 PER YEAR.

ADVERTISING RATES.—The following rates are invariable. I am therefore respectfully informed that any correspondence with a view to obtaining different terms will prove futile. Ordinary advertisements per agate line, 30 cents. One thousand lines or more within one year from date of insertion, per agate line, 25 cents. Yearly orders occupying 10 or more lines of space, 25 cents. Preferred positions, 25 per cent. extra. Advertising notices ending with "Adv.," per line, minion leaded, 25 cents.

1,872,000.

BIG FIGURES, but there are facts behind.

And it's a conservative estimate too.

Of what?

The yearly circulation of

The New York Evangelist.

It's this way:—

Weekly circulation, **12,000**, multiplied by 52 (there are 52 weeks in a year)—**624,000**; multiplied by 3 readers for each copy—the number stated above.

The average would undoubtedly show *more than three* readers for each paper. Six, and more, pairs of hands turn the pages of some copies of THE EVANGELIST.

ADVERTISING RATES.

DISCOUNT FOR TIME.

"	300.00,	30 "
"	400.00,	35 "

The two tables of discounts cannot be combined. Advertisers are entitled to the highest discount that the total amount of advertising done in one year will secure.

Take for example a two-inch advertisement for a year which will cost

\$187.20,

and which will be seen by

1,872,000 People.

ONE HUNDRED PERSONS FOR ONE CENT

That is what can be done in a first class Religious Weekly Newspaper. Can it be done by circulars, or in any other way?

Same people over and over again! So much the better. A shrewd advertiser knows that is one of the secrets of successful solicitation.
